DETAILED ACTION

Reasons For Allowance

1. Claims 1-78 are allowed.
2. The following is an Examiner's statement of reasons for allowance:

The cited prior art taken alone or in combination fails to teach the claimed invention of computerized decision making in as claimed by Applicant. Specifically, independent claims 1 and 40 disclose the use of two computer interfaces to access rule information.

The closest prior art of Chiopris et al. (U.S. Patent Number 5,712,960; dated 27 JAN 1998; class 706; subclass 061) teaches intelligent database management using abductive reasoning but fails to teach or suggest the limitation of two computer interfaces to access rule information. To the extent that this feature is not found in the cited prior art, the present case is found allowable over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
